Jackson County Wind Speed Line Description
Sec. 18-36. Wind speed line adopted and created.
A wind speed line is hereby adopted and created in Jackson County, Florida, which line shall be the centerline of the Interstate Highway 10 corridor as it runs through Jackson County, Florida. For the purpose of regulating building construction standards, as required by the Florida Building Code, the 110 mile per hour wind speed limit for Jackson County is hereby established to the north of said centerline, and the 120 mile per hour wind speed limit for Jackson County is established to the south of said centerline.
(Ord. No. 2002-05, § 1, 4-23-2002; Ord. No. 06-21, § 1, 10-24-2006).
